

BY-LAW 9

SUPPORTED ACTIVITIES AND OPERATIONS

Part I: General

1. The Engineering Society shall support various operations, services, clubs, organizations and events (all referred to as services of EngSoc)
2. Each such service shall be responsible to a given executive member, as seen in the Policies of the Engineering Society.
3. Primary leadership of each service shall be selected according to EngSoc Hiring Policy, as seen in section γ.A.III of the Policy Manual.
4. The goals of each service are defined within this by-law.
5. All Associated groups must follow the rules for financial accountability as listed in Section θ.E. Part I of the Policy Manual.

Part II: Conference on Industry and Resources, Queen's University Engineering (CIRQUE)

6. The Engineering Society may hold an annual conference to be entitled The Conference on Industry and Resources, Queen's University Engineering (CIRQUE).
7. The aim of the CIRQUE shall be:
 - a. to educate the participants on current issues related to engineering.
 - b. to provide formal and informal interaction between engineering students and representatives of business, industry and government.
 - c. to educate participants on the career opportunities available to an Engineering graduate.
 - d. to educate participants on the professional roles and responsibilities of engineers

Part III: Engineering Society Pub

8. The Engineering Society shall operate a pub in the Jackson Lounge of Clark Hall, acting in accordance with University policy and with the requirements of law.
9. In operating the pub, EngSoc shall seek to provide a service to the students at the University by:
 - a. providing a facility in which social events and entertainment may take place.
 - b. providing an opportunity to gain business experience.
 - c. providing employment to students, as members of the pub staff.

Part IV: Engineering Week (EngWeek)

10. Engineering Week shall have the following purposes:
 - a. to be a reflection of the spirit and ingenuity of the Queen's Engineers.
 - b. to give students an opportunity to become involved in the Engineering Society.

c. to promote the creative talents of Engineering students.

11. Engineering Week shall:

a. be run at all times with responsibility and consideration of other student's rights. It should never be seen as a medium for excessive abuse of other campus groups.

b. be financially self-sufficient.

Part V: Science Quest

12. The Engineering Society shall hold an annual non-profit summer programme for children to be entitled "Science Quest, Queen's Engineering Society Science Camp".

13. The Objectives of the programme shall be:

a. to offer a programme to children of elementary school age in the Kingston area which will foster and stimulate in them an interest and appreciation for science, engineering and technology.

b. to provide the opportunity for all children to experience science first hand regardless of background, aptitude or gender. The Science Quest programme shall not be restricted to the academically or financially elite.

c. to provide role models in science and particularly engineering for both girls and boys.

d. to introduce university to children as a non-threatening institution, by exposing them to the engineering laboratories and facilities at Queen's.

Part VI: Science Formal

14. The graduating class of Applied Science may each year present a Formal Ball, to be entitled the Science Formal.

15. Except as regards the matters specified in this by-law, the planning and execution of the Science Formal shall lie solely in the hands of the graduating class.

16. The planning and execution of the Science Formal shall be coordinated by a Science Formal Committee, to be hired from the 3rd year class as outlined in the Science Formal Policy seen in Policy Manual η-SPECIAL EVENTS Section D, Part I.

17. The Science Formal shall have a theme as voted upon by the respective year as outlined in Policy Manual η-SPECIAL EVENTS Section D, Part III.

Part VII: Golden Words

18. a) The Engineering Society shall publish a weekly newspaper, entitled Golden Words.

a. The aim of Golden Words shall be to provide an organ of communication for the Engineering Society, and to provide news and features, coverage of events and topics relevant to the student body of the University.

- b. Golden Words shall be published in such a way as to be a credit to the Engineering Society.
- c. Golden Words shall comply with all reasonable requests by EngSoc for the publication of material on its behalf.

19. The Golden Words shall be operated and managed in accordance with the Golden Words Constitution.

20. a. Except as provided in this by-law, Golden Words shall be free from control by EngSoc in matters of content or editorial policy.

b. Nothing in this or any other by-law shall be construed as preventing or discouraging Golden Words from publishing responsible criticism of the affairs of EngSoc

21. The Editors shall be responsible to EngSoc that Golden Words does not contain any material which is of a seditious, libelous, or scandalous nature, or which constitutes invasion of privacy or violation of copyright or proprietary right.

22. a. Opinions published in Golden Words shall not necessarily be those of EngSoc nor of any other University body, unless such opinion appears over the signature of an authorized representative of the said body.

b. Golden Words shall regularly bear notice to this effect.

Part VIII: Queen's Project on International Development (QPID)

23. There shall exist a non-profit, charitable organization, under the auspices of Queen's University, called Queen's Project on International Development, hereinafter referred to as QPID.

24. The objectives of QPID are as follows:

a. to assist developing countries on a community based scale, with fundamental engineering oriented projects, to meet local needs.

b. to inform the Queen's community about third world development (including the political and social aspects, and the uses and requirements of appropriate technology) through on-campus education and active experience in a developing nation.

c. to provide groups and individuals, of all political belief, a forum in which to present their views during speaker nights and other various QPID on-campus events. These are designed to assist with on-campus education, and views expressed do not necessarily reflect those views held by QPID as a whole.

d. to seek corporate, governmental and on-campus support so as to lessen the individual financial burden for QPID members. This will assure that all students, regardless of financial status, will have an opportunity, if selected, to assist at a project site in a developing nation.

Part IX: Engineering Society Orientation Program

25. The Engineering Orientation Program shall have the following purposes:
- a. to acquaint the new first year students (who for the purposes of abbreviation may be referred to as Frosh) with the Kingston and Queen's Communities, and with the Faculty of Applied Science in particular.
 - b. to develop friendships and a common sense of purpose and identity among the first year students.
 - c. to foster in the minds of the first year students a sense of their responsibilities within both the Queen's Community and the wider Kingston Community.
 - d. to provide entertainment and enjoyable social events for the first year students during their first week at Queen's University.

Part X: Hosted Conferences

26. Periodically EngSoc hosts a conference which rotates from school to school. It is recognized that these conferences are generally separate from the society and responsible to an external body. It is also noted that EngSoc is held responsible for any negative impact from the conference.

Part XI: Policy Reference

27. This by-law may be referenced in the following sections of the Policy Manual: γ .A; η ; μ ; ν ; and Appendix D.
